The Thermage Face Procedure

thermage® 

The Thermage Face

procedure can help smooth and tighten your skin for an overall naturally younger looking appearance without surgery or injections.

Single Treatment. Generally, some improvement is immediately visible and continues for up to six months.

Little to no downtime. After treatment, you can quickly get back to your normal routine.

Color blind. Unlike lasers, the Thermage® Face procedure works on all skin types and colors.

The year round procedure. After the Thermage Face procedure, you do not have to avoid the sun as with laser treatments. Schedule your Thermage procedure in the summer or any time that's right for you!

FAQ's

What kind of results should I expect?

Everyone can expect some collagen tightening. Many patients have seen:

- Smoother, tighter skin with less sagging
- Redefined contours along the jaw line and under the chin
- Softening of wrinkles and fine lines around the mouth, eyes and forehead
- Tightening the saggy skin under the chin

How does it work?

As you age, the collagen in your skin breaks down resulting in wrinkles and sagging skin. Thermage uses patented radiofrequency (RF) technology to safely heat the deeper layers of your skin, stimulating existing collagen and promoting new collagen growth for younger looking skin.

How long will the results last?

The effects continue to improve for up to six months following a single treatment. Results can last for years depending on your skin condition and natural aging process.

How long before I can return to my normal activities?

There's no special care needed after the procedure and most patients return to their regular activities immediately following treatment.

Side effects are generally mild and may include redness, swelling, blisters, bumps and rare instances of surface irregularities.

Get a Smoother, Tighter, Younger Looking Face

BEFORE THERMAGE

Treatment by Flor Mayoral, M.D.

“ People say I don't look 50. That's because of Thermage. Thermage is my fountain of youth!

Grace, Miami, FL ”

“ I was thrilled. My skin was smoother. My laugh lines were less visible and my jaw line had better definition. I couldn't put the mirror down. ”

Jane, Los Alamitos, CA ”

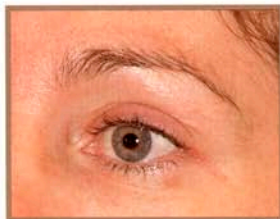

The Thermage Eye procedure

The Thermage Eye procedure helps smooth and tighten skin around the eyes and eyelids, decreasing wrinkles, lines and hooding. You'll have younger looking, more lifted eyes that look less tired.
